

The Fetal Abnormalities/ Anomaly scan is considered as the most important scan in pregnancy and it is medico-legally important to perform it to the best of standards, with proper documentation of images. Enhance your skills at detecting birth defects to the standards required by the **FMF-UK** and **ISUOG**.

The course fulfils the theory component attendance for FMF-UK Fetal Abnormalities certification.

All Faculty are accredited by FMF-UK, London

Moderators - Rachna Gupta, Akshatha Prabhu, Anita Kaul.
